

## PT-309 Pressure Transmitter

### Product description:

PT-309 pressure transmitter adopts imported sensor core, stainless steel isolation type small structure, compact appearance, easy to install. With a wide range and a variety of output signals, this product has good stability in a wide range of temperature, widely used in air compressor and other fields. With CE certification, there are a variety of different specifications to choose, it also can be OEM manufacturing as your requirements.

### Main features:

- A variety of pressure range and electrical output;
- Compact structure, Hirschman plug is more convenient and reliable;
- Ultra-stable technology;
- High frequency dynamic response;
- Suitable for high temperature environment;
- Good long-term stability.

### Technical specifications:

Pressure range	0~1Bar~50 BAR
Output signal	0.5~4.5VDC, 4~20mA
Overload pressure	200%FS
Supply voltage	0.5~4.5VDC, 1~5 VDC, 0~10VDC, 4~20mA (2/ 3wires)
Process connection	G1/4, 1/4NPT, R1/4etc, can be customized
Accuracy	0.5%FS
Operating temperature	-40℃~125℃
Electrical connection	Hirschmann GDM-3009
